Step 1) Locate the injection pump on the driver's side of the engine.

Step 2) Slide out locking retainer and remove wiring harness.

Locking Retainer

Step 3) Plug female connector from module directly into Injection Pump. Plug the male connector from module into the stock harness that was removed from Injection Pump.

***Note:** Make sure the locking retainer slides in and is securely fastened.

Step 4) Mount the module box in a safe location using the zip ties to secure the wires and modules away from any extreme heat and moving parts.

Step 5) Once you have installed the module, connect the switch to the switch pigtail. Once connected you can zip tie it to the module and leave it in place.
