***If installation assistnace is needed, Ag Diesel Solutions is not responsible for any cost associated
with third party installation.**

Injection Pump

1) Locate the injection pump on the driver's side of the engine.

2) Slide out locking retainer and remove wiring harness.

3) Plug female connector from module directly into Injection Pump. Plug the male connector from module into the stock harness that was removed from Injection Pump.

***Note:** Make sure the locking retainer slides in and is securely fastened.

Locking Retainer

4) Mount the module box in a safe location using the zip ties to secure the wires and modules away from any extreme heat and moving parts.

5) Once you have installed the module, connect the switch to the switch pigtail. Once connected you can zip tie it to the module and leave it in place.
