Chip Installation

BE AWARE: All power to the vehicle must be **DISCONNECTED** prior to installation. Failure to do so could result in damage to your vehicles ECM.

Removal of Stock Computer

Disconnect both batteries and locate the ECM Connector under the hood on the driver's side firewall. Loosen the bolt (10mm socket) located at the center of the ECM wiring harness plug. Inside the truck remove the 2 bolts (7mm socket) holding the ECM in place. Remove the ECM from the truck.

Stock ECM Connector Preparation

Once you have the ECM removed, on the opposite end of the wiring harness plug is a small plastic or metal cover. Remove this cover gently. Inside is a double-sided connector that must be cleaned of conformal coating. Connector must be cleaned thoroughly, or the chip will not make proper contact with the ECM.

Scrub off the coating using the scotch brite pad provided or a fine sandpaper. The contacts should start to become shiny and metallic copper color. Scrub only until you begin to see a hint of copper. Wipe off any remaining coating with rubbing alcohol or lacquer thinner on a paper towel.

Please verify that BOTH sides of the edge connector were cleaned thoroughly. Improper cleaning is the most common reason for chip failure or incorrect operation.

Installing the Switch/Chip

Slide the connector cable into the chip.

The proper orientation of the chip is with the circuit board of the chip and the switch cable on the larger side of the J3 port opening.

Once you have properly mounted the chip, secure the chip to the ECM with a piece of package sealing or duct tape.

Re-installing the ECM

Be sure the box holding the computer in place does not bind the chip causing it to tilt and lose connection. Return the ECM to its location and re-connect the wiring harness and 2 bolts in box.

Reconnect Batteries

Install Switch in a convenient location.

LIMITED ONE YEAR WARRANTY

PSI Power Inc. (hereafter "SELLER") warrants that the product supplied shall conform to SELLER's specifications and shall be free from defects in design, material or workmanship for one year of the original Purchase Date. This Warranty shall not be extended, transferred, assigned or varied except by a written instrument signed by SELLER and BUYER. Products that have been returned to SELLER during the warranty period and accompanied by a dated proof of purchase receipt, with shipping and handling paid by the BUYER, and found to be defective in design, material or workmanship, in SELLER's sole discretion, may be repaired or replaced at SELLER's option and cost. All warranty claims hereunder are subject to approval by SELLER upon examination of the product. If the product is found not to be defective by SELLER, the product may be returned to BUYER at BUYERS cost. Under no circumstances shall the SELLER be liable for any labor charged or travel time incurred in diagnosis for defects, removal, or reinstallation of this product, or any other expenses. This warranty is void on any products that show evidence of misapplication, negligence, improper installation, abuse, lack of proper maintenance or alteration from its original design.

IN THE EVENT THAT THE BUYER DOES NOT AGREE WITH THIS AGREEMENT: THE BUYER MAY PROMPTLY RETURN THIS PRODUCT, IN A NEW AND UNUSED CONDITION, WITH A DATED PROOF OF PURCHASE, TO THE PLACE OF PURCHASE WITHIN THIRTY (30) DAYS FROM DATE OF PURCHASE FOR A FULL REFUND. THE INSTALLATION OF THIS PRODUCT INDICATES THAT THE BUYER HAS READ AND UNDERSTANDS THIS AGREEMENT AND ACCEPTS ITS TERMS AND CONDITIONS.
